Purely Business!

The columns of a newspaper represent a cash value. No publisher can afford to give advertising "notices" free any more than a merchant can toss over his counter free gifts of dry goods or shoes. A newspaper is a legitimate business concern. Its columns are its stock in trade, and advertisements should be paid for, no matter in what part of the paper they appear.

KICKERS' CORNER

If any one at any time for any reason has any cause to "kick" in any way at anything of any kind, here's the place to say his say. The door is open—walk right in and help yourself, free gratis and for nothing—but don't make your "kicks" too long—it's the short, quick fellows that count—and out.

The name of the kicker must accompany the kick, or it'll be kicked into the waste-basket.

That's the way to do it, gentlemen of Louisville; cox 'em in, drag 'em in, any way just so you get 'em.

EXPORTS OF GRAIN.

The Chesapeake and Ohio Will Take Immense Consignments East.

The C. and O. Railroad is beginning the work of the improvement in earnest since prosperity begins to show signs of activity in trade and other business circles.

The freight equipment in the coal car line has been taxed to the utmost for several weeks, or ever since the coal strike began, and now that the immense Western grain crop is moving Eastward, the C. and O. is getting a big share of the grain intended for the Atlantic seaport cities and for export via the C. and O. Steamship Line to Liverpool. It is thought that this line will carry more export grain from the United States this fall and winter than any line out of Baltimore or New York.

The ramifications of the C. and O. connections West of Cincinnati are large through the Big Four system. Chicago and St. Louis are reached direct, and at these two terminal points consignments from the West and Northwest are delivered from the Liverpool market. This plan was held in view when the steamship line was started. The vessels cannot carry the freight offered.

These Western shipments all pass through Maysville, and from now on large quantities of corn and wheat from the Western and Northwestern harvest fields will pass through this city.

TERRIBLE EXPLOSION.

Second Street Violently Shaken From Streetcar Track to Carstone!

Yesterday, when all Nature was at its best, and when the busy bustling business man was crowding Second street for all that was in it.

There was a loud report! People peered over the roofs of houses to see what was what.

And some even ventured far enough to ask,

"Whatitisit?"
